DIARY NOTES

DD/S *W*

5 October 1964

1. At the Executive Committee Meeting this morning Bud Wheelon reported that there had been winds up to 60 knots [REDACTED] over the weekend. Damage was very heavy, most of the antennae were lost, and with the exception of telemetry they will be out of business for a considerable time. [REDACTED] which is comprised of a team of six men, is all right.

2. I asked Larry Houston this morning whether the President had actually signed the bill which permits us to make the recent pay increase retroactive. As of Friday, 2 October, he had not; however, Larry is checking on it daily.

3. I met with representatives of the Offices of Personnel, Security, and Finance preliminary to my meeting with [REDACTED] and others tomorrow to discuss the compartmentation of Clandestine Services rosters, etc. No one could see any real security advantage to be gained, and there would be some inconvenience and increased workload for the DD/S components. This, however, would not appear to be too great. In looking at the problem, it did seem to me that some people are receiving such rosters and might not have a need for them and that perhaps the answer would be a good, hard-nosed security survey with DD/P participation to ensure that we are, in fact, observing the need-to-know principle.

4. [REDACTED] telephoned requesting back-up information to support the estimates for construction and related costs [REDACTED] I conferred with [REDACTED] and asked them to send a Xerox copy of the construction costs, which total approximately \$15 million, to Ting this afternoon. I also asked them to provide back-up sheets for each of the other major headings in the cost estimate. (I want to prepare a package so that I can have this information readily available.)

5. Jack Earman spoke to me about the possibility of moving the Audit Staff into the Key Building with the Office of Finance if and when we do take this building and the Office of Finance actually moves there. I think that this is an excellent idea if there is adequate space, and I told Jack that I would keep this very much in mind.

6. [REDACTED] suggested that we nominate [REDACTED] for the National Civil Service League Career Service Award. He, of course, does

not want [REDACTED] to know this; consequently, his name will not be on the list of nominees from the Office of Communications. I told Harry that I would be most sympathetic to nominating [REDACTED] and that we would consider his name along with any others we might receive from the DD/S components.

7. Emmett Echols was in to discuss the case of [REDACTED] again. He recommended that we not pursue this matter any further with General Carter. He said that the Clandestine Services feels also that this young lady must be disciplined but that they do not want her in the Clandestine Services. Emmett thought that he would have no trouble finding a job for her, so I somewhat reluctantly agreed that he could go ahead and find a job for her, place a Memorandum for the Record in the file, make sure that she understands she is being transferred elsewhere as a disciplinary measure, and that we will stop fighting the problem.
